

WTS China continues its CSR commitment (university lecturer appointment)

WTS China continues its CSR commitment. Recently, Martin Ng, managing partner of WTS China, has accepted the appointment as a lecturer to the Master in Taxation program by the Shanghai University of Finance and Economics. The first workshop on reviewing the program's structure and syllabus was convened on 7 January 2017, hosted by the executive president, professor Mr. Liu Xiao Chuang and professor Mr. Zhu Weiqun, and joined by some 40 professors, lecturers and senior tax officials. Lectures are to render support to the program's teaching materials, lecture on selected topics and to guide students on their research study.

The said program is considered as a pioneer of the sort, established in 2014 and has become a major source of supply of leading taxation specialists who now practice in various accounting firms, taxation consulting firms, multinational companies and tax bureaux. It is an honor and pleasure to WTS in playing a role in nurturing talents for the taxation sector.
