

Internship experience

During my summer internship at WTS, I had the incredible opportunity to immerse myself in the world of tax consulting and gained valuable insights into the intricate workings of the financial and taxation industry. From day one, I was welcomed into a dynamic and supportive team that was dedicated to providing top-notch tax solutions to a diverse range of clients.

Learning the Ropes:

One of the most rewarding things about my internship was working hands-on on client projects. Under the guidance of senior advisors, I was actively involved in researching tax regulations, preparing documents and analyzing financial statements. I worked with team members on a variety of different cases, including transfer pricing, tax consulting, and more. At the same time, the English working environment also improved my English skills. With the weekly English training, I learned how to use business English.

Research and Analysis:

During this phase, I was introduced to a plethora of learning resources. The company provided access to tax law databases, e.g. Wolters Kluwer. This allowed me to stay updated with the latest tax regulations and industry trends.

Team Collaboration:

Working closely with the team taught me the importance of collaboration and effective communication. I participated in team meetings, where ideas were shared openly, and different perspectives were considered to develop comprehensive tax strategies. The collaborative environment fostered a sense of camaraderie that greatly enriched my internship experience.

Key Takeaways:

My internship at WTS provided me with a holistic understanding of the tax consulting industry. I gained practical insights into client interactions, taxation strategies, and the inner workings of a successful consulting firm. Beyond technical skills, I learned the value of teamwork, adaptability, and continuous learning.

I am deeply grateful for the guidance and real-world exposure that I received during my time at WTS. As I move forward in my professional journey, I am confident that the lessons learned and the connections made during this internship will serve as a strong foundation for my future endeavors in the field of tax consulting.
