

Merger & Acquisition (M&A) Compliance

China is one of the biggest emerging market all over the world. M&A is an effective measure to access the Chinese market and new products, as well as to achieve greater market share. You should be aware of China tax issues related to M&A, if a Chinese company is involved.

Our strengths

-  We have a team of renowned experts in the area of Chinese taxation with practical knowledge and rich experience on M&A projects.
-  We have served a number of multinational companies on M&A projects, and can respond immediately with practical solutions.
-  With the support of our global M&A teams, we can provide an integrated M&A concept feasible in all countries involved.

What we do within M&A services

Structuring an acquisition	Structuring a divestment	Financial due diligence	Tax due diligence
Legal document review	Project management	Post-transaction service	Post-deal integration
