Digital Tax Lift-off: Practical Lessons for Asia from Europe & Africa

This month will mark some significant moments for global change in the area of digital tax.

- » How will the public consultation on OECD's Pillar 1 and 2 go?
- » What impact will a new US administration have on the global BEPS 2.0 agenda?

Tax leaders across Asia Pacific are looking to early movers for clues about digital tax implementation.

- » What can countries in Asia-Pacific learn from Europe's approach to digital services tax?
- » In Africa, where more than 30 nations are taking an aligned approach, the early news on implementation is coming in. What can be learned from experiences such as Kenya's January 1st roll out of their DST?
- » How is the prognosis across Asia in terms of digital taxation with the threat of 301 sanctions against India and Indonesia?

This webinar goes beyond the headlines, offering ground insights from WTS Global experts who bring unique comparative perspectives from Europe and Africa and lessons for Asia in dealing with taxation of the digital economy.

WTS Global and our member Tax firms in Asia are pleased to bring the latest webinar in our ongoing series of Tax events. This month's Digital Tax topic is highly relevant to C-suite executives and Finance and Tax professionals with interests or responsibilities in Asia and globally.
