

## WTS training concluded on a high note

WTS China co-hosted a China tax training with VDMA on the topic of “Must-know about big-data-generated tax investigation” on 3 Aug. 2023. The training was attended by representatives from equipment manufacturers who look to further enhancing tax risk management.

The training was run by Ms. Ened Du, tax associate partner and Mr. Todd Jin, tax senior consultant of WTS China.

This training program aims at equipping the participants with the must-know about how the tax system seeks its prey, tricks of tax audits, and tips about tax risk mitigation through a self-inspection tool.

The training has covered the following topics:

- National e-VAT invoicing;
- Impacts of cross-function information exchange;
- Must-know of individual income tax (IIT) issues

Presentation PPTs can be available at this [link](#)
