

## Post-Tax Event Seminar: Strategies for Tax Risk Management

31 October 2024

The year 2024 presents significant challenges for many corporate tax specialists, with numerous professionals receiving tax audit or tax self-inspection notices, sometimes multiple times. Leveraging an updated tax collection system and sophisticated teams, China's tax authorities are becoming increasingly efficient in conducting tax audits.

In response to these potential tax risks, WTS China and the German Chamber of Commerce hosted an insightful seminar titled “**How to manage the tax risk in China**” on 25 October 2024, in Shanghai. Ms. Maggie Han, a partner at WTS China, served as the speaker for this seminar.

The seminar covered a variety of important topics, including:

- Hot issues in tax audits for 2024;
- Commonly overlooked tax risks in daily filings and practical suggestions;
- Skills for responding to tax audits.
