

Dear Sir or Madam,

Call for Interest | Student internship at your firm

WTS China is pleased to invite your firm to express interest in offering short-term internship opportunities to college students. WTS China has been appointed as an internship and training academy for students from universities, notably Shanghai University of Finance and Economics (SUFU) and Xiamen University (XMU). This appointment is made on an honorary and no-sponsorship basis, as part of WTS China's commitment to serving the community. Each year, WTS China also hosts four to eight interns in our China and overseas offices (especially in Germany).

★ How it works?

1. You kindly indicate to us whether your firm has any internship openings **in China** for Chinese graduate and post-graduate students – using this [\[form\]](#).
2. We share your vacancy information with the students. The internship period can range from 1 to 3 months (or longer, if you prefer).
3. We forward interested students' CVs to you for your independent processing. WTS China plays no role in the recruitment process.
4. You interview and hire the suitable interns directly, and set the internship terms and conditions per your firm's policy.
5. After the internship, whether your firm wishes to offer a formal employment opportunity to the intern is entirely at your discretion.

★ Who are the students?

They are mostly master's degree students at SUFU and XMU, majoring in taxation, who are seriously seeking internship opportunities. Despite their recent study in taxation, some may have bachelor's degrees in other disciplines, such as finance, economics, international trading, mechanics, engineering, or computer science. As a result, their internship interests can span a wide range of industries. Occasionally, there may also be students from overseas colleges. Most of them come from various hometowns across China. Therefore, their internship location is not limited to Shanghai or Xiamen – they could be interested to be placed anywhere your firm / plant is located. They all possess English- and Chinese-speaking capability.

★ What's in it for your firm?

You can enjoy the following benefits:

- Quick access to talent resources to help address your firm's short-term support needs.
- Widespread recognition among students and universities for your philanthropic contribution to the community.
- First-hand opportunity to identify candidates suitable for long-term employment.

We thank you in advance for your support to the community by offering valuable internship opportunities to students.
